## Certificate III in Pathology Collection

### Introduction

WELCOME to the Certificate III in Pathology Collection! Not bothered by the sight of blood? Do you find the pathology industry exciting? Are you looking for a rewarding and challenging career in health? Then this course is designed for you! The HLT37215 Certificate III in Pathology Collection is the starting point to kick start your career in to the exciting world of phlebotomy and pathology collection.

### What will I learn?

During the course you will learn how to provide excellent care in a health care environment, maintain infection control and WHS procedures, interpret medical terminology and improve your communication skills. A complete list of units can be found on the back of this brochure.

### What are the career opportunities?

There are a vast range of employment opportunities and careers in Pathology. Some include:

- Pathology Collector/ Phlebotomist
- Specimen Collection Officer
- Pathology Assistant
- Mobile Pathology collector
- Hospital based Pathology collector

### What does a Pathology Collector do?

Pathology collectors perform blood tests and all other body fluid sampling, storing, separating, sorting and transport of biological samples. Pathology collectors have a customer service focus, working face to face and communicating with clients to meet their needs.

### Is the course face to face or distance?

BOTH! Our courses are delivered through flexible, blended learning. Under the supervision and mentoring of your trainer you will be required to attend face to face classes, complete a few units at home and satisfy the workplace requirements for phlebotomy collections.

# Certificate III in Pathology Collection

## Units of Competency

There are a total of 14 units that make up the HLT37215 Certificate III in Pathology Collection; 9 core units and 5 electives. These units are delivered through a blended face to face learning and distance education method. Please note that you will need access to a computer, internet, email, Microsoft and Adobe to complete your distance units and undertake work placement if you do not currently work in a pathology environment.

## Core Units

- CHCCOM005 Communicate and work in health or community services
- CHCDIV001 Work with diverse people
- HLTINF001 Comply with infection prevention and control policies and procedures
- HLTPAT001 Identify and respond to clinical risks in pathology collection
- HLTPAT002 Perform venous blood collections
- HLTPAT004 Collect pathology specimens other than blood
- HLTWHS001 Participate in workplace health and safety
- BSBCUS201 Deliver a service to customers
- BSBMED301 Interpret and apply medical terminology appropriately

## Elective Units

- HLTCAR001 Perform electrocardiography [ECG]
- HLTCAR002 Perform holter monitoring
- BSBWOR204 Use business technology
- HLTPAT006 Receive, prepare and dispatch pathology specimens
- HLTAAP001 Recognise healthy body systems

## Entry requirements

This course requires you to have a good understanding of written, verbal and spoken English. You will be asked to undertake our English Assessment (LLN) on enrolment. See our admin staff for further details.

To achieve this qualification, students need to demonstrate the workplace assessment requirements for the unit: *Perform venous blood collections*, which includes 35 hours of pathology work and a minimum of 20 venepunctures. Police checks may be required for work placement.
